

Kit Includes:

Installation:

1. Remove the tail light lenses. There are four screws holding each lens in place.
2. Remove the light bulbs.

3. Now is a good time to clean the lenses and housings. If lenses are in bad shape a new set is recommended.
4. DO NOT remove the tape from the LED assemblies yet!

5. Test fit the assembly into the tail light housing as shown below to make sure it aligns correctly.

6. Before mounting the new LED assembly into the housing, plug the bulb base into the stock bulb socket and test the tail lights and flashers to make sure everything is working correctly.

7. Make sure the tail light housings are clean and dry so the single use primer applicator can be used for both housings. Apply the primer to the outside edge of the housing where the tape will attach. **AFTER THE PRIMER HAS BEEN APPLIED, LET THE HOUSING DRY FOR 5 MINUTES BEFORE GOING ON.**

8. After the primer has had adequate time to dry, remove the backing from the tape located on the LED assembly.

9. Make sure the bulb base is fastened securely in the stock bulb socket. Carefully place the LED assembly onto the housing and press down firmly.

10. Fasten the lens back on with the four original screws.
11. Repeat steps above for the other side.
12. Test the tail lights, brake lights, and turn signals. If the turn signals do not flash you will need to upgrade your flasher. If you are replacing only the rear turn signals you should be able to use a heavy duty electronic flasher from your local parts store. If you are replacing both front and rear or do not have front bulbs you will need a no-load flasher, Dakota Digital part number LAT-NLF.

SERVICE AND REPAIR

DAKOTA DIGITAL offers complete service and repair of its product line. In addition, technical consultation is available to help you work through any questions or problems you may be having installing one of our units.

Should you ever need to send the unit back for repairs, please package the product in a good quality box along with plenty of packing material. Ship the product by UPS or insured Parcel Post. Be sure to include a complete description of the problem, your full name and address (street address preferred), and a telephone number where you can be reached during the day. An authorization number for products being returned for repair **is** needed. We will contact you if any repair charges exist. Any returns for warranty work must include a copy of the dated invoice or bill of sale.
